

LAUNCH MARKETING PLAN

Liquid Lighting 3-Month Launch Plan

Prepared For:

Liquid Lighting (Pty) Ltd

Date: 4 May 2026

Valid Until: 4 June 2026

PO Reference: BB-LL-LAUNCH-2026-002

Plan Ref: LL-LAUNCH-MKT (Rev 1)

1. Overview

This is a **3-month launch marketing plan** covering the first 12 weeks from Liquid Lighting's storefront go-live. The Shopify storefront build is covered separately and is not priced in this document. This plan is the marketing engine that drives traffic, conversion, and retention on top of that storefront. The schedule is expressed in weeks relative to launch so it can start at any time once the storefront is ready.

Channel approach: The launch is intentionally focused on three channels at this stage: **paid search and shopping** (Google Ads), **search engine optimisation** (SEO), and **Shopify-native email and abandoned-cart automations**. This narrower mix lets us invest deeper in the channels that produce SA-verifiable returns at this stage. Additional channels (third-party lifecycle email, messaging, CRM) can be re-evaluated in Phase 2.

The launch posture is B2C-first with a light trade scaffold. Trade buyers are kept warm through the same on-site funnel (a /trade application page and tiered pricing via Shopify customer groups), but no separate trade build, portal, or paid programme is included in this scope.

2. Scope of Services

A. Google Ads (PPC)

- Brand Search, lowest-CPC traffic, defends the LL term against competitor bidding. Always-on with daily pacing review.
- Non-brand Search, head and torso lighting queries (pendant lights, track lighting, outdoor wall lights). Match types tightened weekly with negative-keyword passes.
- Performance Max / Shopping, fed by the Merchant Centre product feed. Asset groups split by category. Weekly product-feed health check.
- Indicative paid split, first 30 days: 15% Brand, 35% Non-brand Search, 50% Shopping/PMax. Reset from data at day 30.

B. Meta Ads (PPC)

- Prospecting, interest- and lookalike-based audiences. Two creative concepts at launch (lifestyle + product-led).
- Retargeting, site visitors, add-to-cart, view-content. Frequency capped to protect the warm audience.
- Catalogue / Shop, Meta Shop tab live with the launch SKU set; dynamic catalogue ads.
- Scaled only when Meta CPA tracks at or below the blended target.

C. Search Engine Optimisation (SEO)

- Technical foundations: meta tags, Product / BreadcrumbList / Organisation structured data, XML sitemap, Search Console verified, robots.txt clean.
- On-page optimisation on the launch categories and top-50 PDPs: title tags, meta descriptions, H1/H2 hierarchy, internal linking.
- Content hub: one pillar piece per week supporting paid landing pages.
- Local SEO: Google Business Profile claimed and populated for the LL trading address.
- Backlink seeding through press send-out at hard launch and SA design / architecture publication outreach.

D. Shopify Email

- Shopify's native email tool used for campaign sends and product drops.
- Branded master template; mobile-rendered; plain-text fallback.
- First 10,000 emails per month included; small per-email fee above the threshold (direct platform spend).

E. Shopify Flows / Marketing Automations

- **Abandoned cart automation** — three-stage sequence (1 hour, 24 hours, 72 hours after abandonment) with native cart-token discount codes on the second and third sends. Headline retention asset.
- **Browse abandonment automation** — triggers on viewed-product without add-to-cart for known contacts; two-stage send.
- **Post-purchase automation** — thank-you email on order; review request at day 14.

- **Welcome automation** — triggers on email signup via the exit-intent welcome offer or first purchase; three-email sequence.

F. Reporting

- Performance dashboard with always-on visibility into channel performance, CPA, ROAS, conversion rate, AOV, and cart recovery.
- Channel-level deep-dives included as part of optimisation work.

3. Deliverables

The table below summarises the deliverables for the 3-month engagement, mapped to the lettered services in section 2.

Component	Deliverable	Description
A. Google Ads (PPC)	Brand Search	Always-on; defends LL brand term against competitor bidding.
	Non-brand Search	Lighting queries; weekly negative-keyword passes.
	Performance Max / Shopping	Catalogue-driven; weekly product-feed health check.
B. Meta Ads (PPC)	Prospecting	Interest- and lookalike-based audiences; two creative concepts.
	Retargeting	Site visitors, add-to-cart, view-content; frequency-capped.
	Catalogue / Shop	Dynamic Meta Shop ads from the product catalogue.
C. SEO	Technical foundations	Meta tags, structured data, XML sitemap, Search Console.
	On-page optimisation	Top-50 PDPs and launch categories optimised.
	Content / blogs	One pillar piece or blog post per week.
	Local SEO + backlinks	Google Business Profile; SA design press outreach.
D. Shopify Email	Branded campaign template	Mobile-rendered template with plain-text fallback.
	Weekly campaign sends	Campaign sends and product drops via Shopify Email.
E. Shopify Flows	Abandoned cart automation	Three-stage send (1h, 24h, 72h) with native discount codes.
	Browse abandonment	Two-stage send on viewed-product without add-to-cart.
	Post-purchase	Thank-you on order; review request at day 14.
	Welcome automation	Three-email sequence on email signup or first purchase.
F. Reporting	Performance dashboard	Always-on visibility: CPA, ROAS, CVR, AOV, cart recovery.
	Channel deep-dives	Included as part of monthly optimisation work.

4. KPIs and SA-Verified Benchmarks

Cost per purchase (CPA) is the headline KPI and is set against South-African-specific benchmark data, not international averages. International benchmarks materially overstate SA e-commerce costs. Sources are listed at the end of this section.

Verified SA inputs

Metric	SA value	Source
Google Ads average CPC, all SA industries	R 4 to R 6	Adbot SA 2025, 1,200+ SA search campaigns
Google Ads average CTR, SA	9.1%	Adbot SA 2025
Meta Ads typical CPC, SA e-commerce	R 15 to R 30	Syte SA 2025
E-commerce conversion rate, SA	1.5%	ECDB SA market data 2024
Add-to-cart rate, SA	9.5 to 10.0%	ECDB SA 2025
Cart abandonment rate, SA	84.0 to 84.5%	ECDB SA 2025

Derived CPA target for Liquid Lighting

Cost per purchase = CPC / CVR. Lighting is moderately competitive in SA paid search, so we model slightly above the SA average CPC. The table below shows the resulting CPA at three CVR scenarios.

Channel and scenario	Assumed CPC	Assumed CVR	Implied CPA
Google Ads, conservative	R 8	1.5%	R 533
Google Ads, target	R 8	2.0%	R 400
Google Ads, optimised (month 3)	R 6	2.5%	R 240
Meta Ads, conservative	R 25	1.5%	R 1,667
Meta Ads, target	R 20	2.0%	R 1,000
Blended target, 90-day plan	Mix	Mix	R 500 to R 800

90-day KPI targets

KPI	Month 1	Month 2	Month 3
Cost per purchase (blended)	R 800	R 650	R 500
Conversion rate (overall)	1.2%	1.5%	2.0%

KPI	Month 1	Month 2	Month 3
Abandoned cart recovery rate	8%	12%	15%
Organic sessions (m-o-m growth)	Baseline	+ 30%	+ 60%

Syte SA, *Facebook Advertising Costs for E-commerce 2025* (syte.co.za). 4. Shopify SA, *E-commerce Conversion Rate 2026* (shopify.com/za).

5. Timeline

12-week engagement structured in weeks relative to go-live. **Week 0** is the pre-launch sprint, **Week 1, Day 1** is soft-launch day, and the **hard-launch moment** lands at the start of Week 2 once 48 hours of clean tracking data has been verified.

Week	Deliverable Milestones
Week 0 Pre-launch sprint	Google Ads accounts built, audiences seeded, Shopify automations configured, SEO foundations deployed, ad creative finalised at low daily caps.
Week 1, Day 1 Soft launch	Soft launch. Site live 09:00. Paid live at 30% of daily cap. Shopify Email soft-launch send.
Week 1, Day 3 Ramp gate	48-hour ramp gate: tracking verified end-to-end against real Shopify orders before any scaling.
Week 2, Day 1 Hard launch	Hard launch. Paid scaled to full daily cap and hard-launch email send to full list.
Weeks 1 to 4 First 30 days	Channel cadences locked: 1 SEO pillar / blog post per week, ongoing performance optimisation, weekly campaign send via Shopify Email.
Weeks 5 to 12 Days 31 to 90	Optimisation: A/B testing on top PDPs and homepage, CPA driven to target, SEO traffic compounding, end-of-engagement review in Week 12.

6. Cost Summary

All fees exclude VAT. Media spend is paid directly by Liquid Lighting to Google and Meta. Broadbrand does not add any fee on top of media spend.

Item	Description	Monthly	3-month total
A. Agency retainer	Account management, Google Ads management, Meta Ads management, SEO, blogs and content, ad creative (static, carousel, short-form video, copy), Shopify Email and automations management, ongoing reporting and optimisation.	R 30,000	R 90,000
B. Media spend	Funded by Liquid Lighting and paid directly to Google and Meta. Broadbrand adds no fee on top of media spend.	R 30,000 (LL-funded)	R 90,000 (LL-funded)
C. Platform costs	Shopify plan and Shopify Email overage above 10,000 emails per month. Direct platform spend.	Direct	Direct

Agency retainer: R 30,000 per month | R 90,000 total over 3 months (excl. VAT)

Media spend, LL-funded: R 30,000 per month | R 90,000 total over 3 months, paid direct to Google and Meta

7. Acceptance

By signing, the client confirms acceptance of this 3-month Launch Marketing Plan at **R 30,000** per month agency retainer (**R 90,000** total over 3 months, excl. VAT), plus **R 30,000** per month media spend (**R 90,000** total) funded by Liquid Lighting and paid direct to Google and Meta. Retainer invoiced monthly in advance. The 12-week engagement begins on a start date agreed by both parties. Plan valid for 30 days from the date of issue.
